

# Business Rates

## Business User Talk Rates

Businesses interested in our talk packages are advised to call our solutions team first. We will happily discuss your needs, as well as provide you with a custom rate sheet to ensure you have the best possible rates to ensure we meet those needs.

All business customers get their own Account Manager who will be a single point of contact should you need our support regardless of the question. This is provided as standard to all businesses regardless of your company size or phone bill size. Can your existing telecom supplier offer such a personal touch?

We now offer full telecom services including line rental.

Here is a few sample rates of popular destinations with our existing customers. Prices are shown as PENCE PER MINUTE and EXCLUSIVE OF VAT. Calls are charged per second, WITHOUT a minimum call charge, WITHOUT minimum monthly spend requirements, and can be viewed using free online itemised billing.
