

## cMail Marketing

email services for your Website / Business

Our cMailManager provides all you need to manage, build, automate and send your email campaigns.

No software to worry about, everything is hosted on our business class servers.

With cMailManager you can manage every aspect of an email campaign; from building your list and creating personalised newsletters, to organising campaign results and automating your follow up emails.

Full tracking & campaign analysis

Every email you send with cMailManager can be tracked through your cMail control panel. You will be able to monitor total emails opened, click throughs and see which subscribers opened / viewed mail. All this can be used to perfect your email campaigns.

Prices start from just £12.95 per month for 1000 emails so contact us now to get started.
